FORMAT: 12"

EVE WHITE

Following the Swiss import from Crowdpleaser, the 2nd release from Eve White is now available on *Contentismissing*. On the new EP *New You* the duo has consequently developed their sound and underlines their musical variety.

“ON THE MOVE”

On the Move combines classic rave-sounds from the beginnings of techno with jacking Chicago-Sounds. This successful set-up introduces the track ‘Hooray’ without eliminating the funky pumping groove. In *Jack your Body* the harmonic piano chords provide depth and warmth, while the whispered vocals are thoughtfully-placed here and there to give the track interesting layers. The suspense is built-up through-out the track with effective sporadic techniques - that really work up the crowd. This makes the A-side not only a peak-time track but also a perfect appetizer for the highlight.

“ELEVATE”

Sweet floating harmonies create an atmospheric and euphonic intro for a swinging groove. Bongos, dampened hi-hats and oldskool produce the hypnotic flow while the driving bass and characteristic chords produce the neo-house depth. Subtle breaks provide a well-deserved breather in the arrangement. Hence *Elevate* creates a euphoric condensed sound, for Sunday mornings 7 a.m.

“THE RUNNER”

The Runner is a hybrid of dubtechno vibes and euphoric strings. The track merges both into a compact coordinated ensemble, with a tight groove supported by a framework of unobtrusive percussion. With a fundamental surface of sound and catchy harmonies. *The Runner* is a flowing, deep number for your head,-and the dancefloor.
